GAME IS CALLED OFF

RAIN PREVENTS EXHIBITION AT SPRINGBROOK PARK.

ARRANGE FOR OPENING DATE

Stockholders of Association Will Sell One Thousand Tickets at One Dollar Each—Office Arrives from Grand Rapids.

To-day's exhibition game between South Bend and Grand Rapids was called off this afternoon on account of rain. Weather permitting a game will be played by the two teams at Springbrook park to-morrow. The contest will be called at 2:30 o'clock.

Manager Steele "roped" some another day inside the "ring" to-day and took a brief practice at a cozy corner of the weekly work. On Monday the series with Notre Dame will open.

The pitchers were worked hard to-day and are taking their practice under the careful supervision of Grant who is watching and making them observe the new balk rule.

Rogge is working hard to get into trim and is tapping the ball in a way that indicates that he will be among the strong men on the Green's batting list.

At meeting of stockholders of the Twin City Base Ball Association was held at the Commercial-Athletic club last night to hear the report of the auditing committee and to discuss the outlook for the present season. It was decided to sell one thousand tickets at a cash price and for dispose of 1,000 tickets at one dollar each, purchasers being given a badge to show that they are "other-half." The general idea is to raise a fund to pay the expenses of ball, the dollar scheme being taken up for the purpose of raising money to cover preliminary expenses.

Spangler appears to have a good eye and is hitting the ball in a manner that bids fair to keep him on the list, although his work on the initial sack is good. Connors is playing steady ball and looks like a reliable man for the sack. Ryan is doing well and is doing consistent training.

Great Watches Philrath.

Philrath the new candidate for Green's outfield, is an giant yesterday and timed in watching his work carefully. He has a quick delivery and will do light work to get his arm in shape. He was lined up with the regulars and showed up well in the field and at bat. Ferguson also did his first training yesterday and was so anxious to work that he had to be driven to it to keep from overdoing it. He has planned a formidable swing and made a favorable impression with the crowd. Ferguson also did his first work yesterday and although he has had no practice before this season he got his number of hits in his turn at bat.

Schafer is performing well in the field but is not the pitchers. He has difficulty in getting a comfortable stance and his control is excellent. He should play the best game this season that South Bend has ever seen from behind the bat and he will also be a good man when he is in condition to work. He is at his work with the pitchers and will be in the condition when the season opens.

After batting practice yesterday the men jogged a quarter of a mile around the track and then indulged in a sprint out a way to the wood who, aside from being a little stiff, is not rounding into shape fast. Cogswell says he wants to reduce weight but states that he is after a place on the team and will be on time on fourth stone and good mesh.

Hurrel Will Make Good.

Hurrel will make good without doubt. He is a hard worker and has made fields his position well and will be one of the best hitters on the team if he continues to have the ball out as at present.

All the catchers are showing up strong. They have been no backsliding work yet but the men have been practicing throwing and catching the pitchers so that they will have no difficulty to get into the game against Grand Rapids.

Bill Ryan, an third probably deserving, Sandon and Brown second, Dent, Sparrow, South Bend will have in him one of the fastest third basemen in the state. Ryan was in good shape yesterday and the way he held around the diamond made one wish that the team had been in training for a month.

Nothing has been said of selecting a "twenty" will take place after to-day's practice and he has a hard proposition on hand to discuss of. With McNerney and O'Neil two fast men after the outfield and Ryan and Dent good candidates, Sheehy and Gonzalez will be for short, beside good men available for the outfield positions the work of choosing is a job that would puzzle an other and more experienced head.

President Collins in the City.

President A. H. Collins of the Grand Rapids baseball team arrived in the city last night and was met by Manager Harry "Harry" Sullivan at the Sherman hotel at noon. Collins is well pleased with the manner in which the players are rounding into form and is also pleased with the showing made by the team of the Twin City are show a good deal of ball and baseball and a great outlook. Of the men in the outfielding into condition, "Jim Tiff" Harg is in the lead. He is in splendid condition that he was last year and promises to play a real game at the third sack. Ferguson, who hails from Cleveland, O., has joined the team and he carries excellent recommendations from Cleveland. Tiff Wheeler, also of Cleveland, Sheehy, who now hails from a North Dakota town who is trying for a place on the team is not Ethelert, but he will have some, especially by the members of the team who know him.

Central Game Great.

Pitcher Grubbs, of Terre Haute, is unable to report for practice being confined to his room by a severe attack of stomach trouble.

Although the singles did not report at Springbrook ball yesterday they have arranged a game between the Regulars and Twenty-one.

Sunday, last year's star pitcher, Dayton has returned his transportation and from present indications will play independent ball, still Dayton has other troubles.

Jimmy Austin reached Dayton last night and will be in shape for ball game with the Grandpa, and a crowd or and will no doubt be a Rattler game. Austin was tried by South Bend last year.

The directors of the Wheeling team are requesting that some black the uniform of the team, as it would be a break being a misfit and would put rule with the opposing teams in well form and other affairs in interest and tension.

Evansville has signed two players and timed day and the other day. The

Sound of the Human Voice.

No man knows the sound or his own voice. He hears himself through the chamber—the outer ear and the eustachian tube. He hears his friend through the ear only. Hence, he would rather listen to himself than to his friend. Try your voice in a gramophone and you will not recognize it. But you will immediately identify that of your friend.
