PRICES OF STOCKS STRONG AT OPENING

GOULD ISSUES ESPECIALLY ATTRACT ATTENTION.

ACTIVITY IS MODERATE

Wabash Preferred Advances and Same is True of Missouri Pacific, United States Steel and Reading—General Review.

By Associated Press.

NEW YORK, March 9.—The stock market opened strong and moderately active to-day. The Gould issues were especially strong, Wabash pfd. advancing 1¾, the common ⅝, and Missouri Pacific ¾. United States Steel and Reading gained ¼ each and Union Pacific ⅝.

Opening prices were the best of the first hour, and the market receded slightly on better distribution of selling orders. Atchison sagged to ¼ below yesterday's close and St. Paul, New York Central, Missouri Pacific and Southern Pacific a fraction. The tone was better at 11 o'clock.

Trading was without a guiding motive in the stock market this morning and after a slight advance prices went back to Saturday's closing level. The Mexican situation was not a factor, assurances from various quarters serving to check any apprehension, and Mexican stocks showed no further weakness. Reduction of the bank of England rate had been discounted in advance and had no material effect there or in New York. The bond market was firm, with considerable activity and strength in Wabash issues.

There was a slight improvement in the tone of the market after 11 o'clock. Union Pacific extended its rise to a point. The advance was halted, however, when Missouri Pacific was sold down from 54 to below 53.

Complete stagnation prevailed during the afternoon session, the heavily adverse influence of the Gould influence on the general demand.

The market closed slightly more active and steady. Trading in the last hour was even duller than at any other period. The closing was irregular, with a slight advance in Missouri Pacific, which fell to the lowest price of the day. Pennsylvania, Lehigh Valley, American Agricultural Chemical and the Interboro Met. stocks showed distinct heaviness.

IRON MARKET IS FIRM.

Trade Review Shows Quietness for Month of February.

The Tribune's Special Service.

CLEVELAND, O., March 9.—"The iron and steel market during the past week has been somewhat quieter than for the corresponding week in February," the Iron Trade Review to-day says. "Prices are firm; specifications continue to come in in satisfactory manner and a fair volume of business has been booked, but buyers generally have become more cautious in closing for their future requirements. Reduction of the steel freight rate declared effective, however, cancellations have been made by the railroads and buying of track materials by transportation companies at present is heavier than at any time for the last year. There have also been cancellations by bridge material for railroads. In well informed circles it is believed that the freight rate decision will not have a serious effect upon the market, as it was generally anticipated. Indications thus far from trade will make a very good showing this month.

"The second advance of $1 a ton in prices of wire products so far this year was announced by the American Steel & Wire co. March 4, and the manufacturers are limiting contracts at the present prices for delivery within 30 days. Fairly heavy buying of sulphur at $1.60, Pittsburg, for second quarter delivery is noted, which represents an advance of $1 a ton, as the $1.55 quotation will be withdrawn at the end of this month.

WHEAT MARKET IS WEAK.

Government Report Results in Depression.

By Associated Press.

CHICAGO, March 9.—Decided weakness in the wheat market to-day resulted from the government report showing that farm reserves were larger than had been generally expected. In addition, Liverpool reported that both shipments and offerings from the Argentine were more liberal than had been looking for. Bearish feeling here was also influenced by the report that and on account of the fact that a majority of advices from the southwest indicated excellent crop conditions. The opening was ¼ to ⅝@⅞ lower, May starting at 86 to 86¼@⅞, the same change from last night as the closing was all altogether, but steadied at 86¾@87¼.

Quite a number of shorts covered and caused a brief rally but stop loss selling led to a fresh slump. The close was weak with May at 85¾, a net loss of 1¼@1¾.

Corn turned strong in consequence of purchases by leading bulls. The government figures were construed as favorable to the bulls, prices opened ⅛@⅜ down to a shade up, at 47@47¼, and May sold at 47¼.

Fine weather eased the market somewhat. The close was steady with May ⅛ net higher at 47⅜@47⅝.

Shorts were busy covering oats. Prices opened unchanged to ⅛ off at 30⅜ to 30⅝ and then advanced to 30⅞.

Car lot receipts: Wheat 13 cars, with five of contract grade; corn 333 cars, with none of contract grade; oats 100 cars. total receipts of wheat at Minneapolis and Duluth to-day were 245 cars, compared with 144 cars last week, and 397 cars the corresponding day a year ago.

With hogs lower and the week's packing much heavier than a year ago, provisions dropped lower, prime ribs sagging 10 cents at night, or 7½ down with May ribs at $9.87½. There was practically no business in pork or lard.

NEWS OF MISHAWAKA

—Continued from Page Eleven.

EXCELLENT FIRE PROTECTION HERE

Insurance Underwriter Inspects Department and Buildings.

Mr. Turk, of the National Underwriters' association, of Indianapolis, was in Mishawaka yesterday and inspected the fire department and fired the city generally. Mr. Turk informed the Tribune that Mishawaka has as good a fire protection as any city in Indiana. With the arrival of the new motor chemical combination truck, Mr. Turk thought that this city's department would be superior to any in northern Indiana, and the north side fire house will also considerably lower the insurance rates, particularly on the north side of the river. Mr. Turk will report to the underwriters' association and to the state insurance commission.

The insurance rates of Mishawaka are not materially higher than of other cities, but, any reduction, of course, would be welcomed by the people. No serious conflagrations occurred in the city last year, the most of the fires consisting of brick or frame buildings in the business district, the fires can be kept at the minimum.
