It consists of about 1,200 acres.

The mortgage was given over 40 years ago by the late Alexis Coquillard to the state of Indiana to secure a note payable to the state of Indiana, the payment on behalf of the state in the branch of the State Bank of Indiana the sum of $8,456.25. The note was paid in full and Alexis Coquillard many years ago, but the records did not bear witness to the satisfying of the mortgage. DUKE OF YORK SNUBBED.

Mounted Police Had Good Idea of Their Dignity.

Listening to the information of the Canadian mounted police, as one encounters them everywhere in the Northwest, it is distinctly evident that they are men of a different stripe from the Tommy Atkins of the British regulars, says Lewis's Monthly. The mounted policeman is a head, not an automaton, nor a Sandy. This was curiously illustrated during the visit of the Duke of York to the territories last year. As the royal train came into one of the frontier towns two liveried outrunners dashed breathlessly to the platform, shouting excitedly for the police to "get out the guard of honor!" The trooper of the cavalry type smiled and said nothing; but one of the frontiersmen in khaki frowned and took a bite of chewing tobacco.

The two little men in royal livery became apoplectic.

"Don't you men hear? Get out the horses! Who's going to get out the horses!"

The trooper in khaki again calmly took consolation for the insult from his tobacco. "Have some? No? Horses? Did you say horses? Well, don't burst your buttons. What do you think you are for? Get 'em out yourself!"

DAUGHTER WAS NOT MISSED.

Was One of Fifteen, and Her Elopement Was Not Noticed.

In the old town of Frederick, in Western Maryland, there lives an estimable lady who has what is generally known as an "abundant" family.

To tell the truth, she is the mother of twenty children, fifteen of whom are daughters, and all of whom, up to a few years ago, lived at home.

While this good lady lived with a mother's love every one of the twenty, the superabundance of her sons and daughters made it a little difficult to always keep tab on the procession.

Consequently there is a basis of truth in the story that is told of what happened this family. One of the daughters of the house eloped with the man of her choice, and, going to another city, was there married to him.

It was not until three weeks afterward that she was missed at all, and then one of her sisters, asking the whereabouts of "Mabel," caused a search to be instituted, and the truth finally was discovered, to the intense chagrin of the mother.—Baltimore Sun.

NOT A WEEK NOT ONE FAMILY.

Senator "Joe" Hawley has a collection of dog stories one of which his friends and rules.

He was taking a constitutional in a Western New York village on a pleasant Summer's day. While passing a cottage he was attracted by a dog, who, looked like a pachaeding.

"Don't you help me, Sir?" said the man.

"Why! You can't need anything" replied the Senator, "You have four or five dogs around the place, my man."

"That's true, Sir," was the reply, "but I can't compel my family to eat dogs."—New York Times.
