She is to enter Wellesley college to equip herself for the work she means to do in China. Her early career was a desire for knowledge with the determination to acquire it. Her ambition is to return to China and to be a guide and a "wise" mode girl."

Friends saw that the little abused aged orphan was cared for during her stay in Honolulu, and contributed money during her course at the Korean school from which she was graduated with honors. From two years work as a teacher she saved enough to take her through Cooks conductor, which she was graduated in 1908.

Her journey to Wellesley, where she intends to specialize in mathematics, Latin and English. After graduation she will return to China and devote her life to imparting the knowledge she has gained to her countrywomen. In her stores in the flowery kingdom
