## F To Try for Thirty Days

You've thought about it—you've even considered it's too—you've guessed that the

## Electric Flat Iron

was all right—we even as good as say it is but you can't be sure until you try it.

**HERE'S YOUR CHANCE**—Simply say by postal card or over the phone "I want to try a Flat Iron for 30 days" and we will send you one under conditions that will give you a chance to get it at once with all the accessories. You may try it for

30 days. If you want to keep it then, all right, if not, all right, no matter. We'll not ask you even ask you to purchase the iron.

Don't hesitate. It is all that you try.

Now don't mistake us, you don't pay for our rent, and we don't get paid. It costs us to make a Flat Iron as far as we've concerned that's an end to it.

We'll give you the opportunity of seeing what the Electric Iron is like!

P. S. The Electric Iron made \$4.50 in late February and now get ready. It costs us to make a Flat Iron as far as we've concerned that's an end to it.
