

**SORIN WILL MEET  
STUDEBAKER CLUB**

GAME SCHEDULED AT NOTRE  
DAME SATURDAY

COAKLEY READY TO HURL

Three Pitchers Will be Used Against  
University Team—Joe Mee is Ex-  
pected to be Leading Third  
Baseman This Year.

Sorin ball at Notre Dame will be the opening game of the Studebaker club of the Monday night baseball league Saturday afternoon and followers of the Wadsworth team will be in for a lively battle when the two aggregation teams meet. The University team is considered of a speedier nature than the Sorin club which has been displaying a brilliant record during the season. The three Studebakers appear to be exceptions to the rule.

Yockey, R. Moffit and William Cook will be the pitchers used against the Notre Dame men. Coakley came to South Bend several weeks ago to try out for the Studebaker club but the arm was not in condition at that time and he was released after having pitched in the game against P. Wayne with mixed results. His acquisition by the Studebakers is considered still too early to be of much value. It is warm for the factory batters—that means the Studebakers have some local men with lots of stuff.

C. Davidson and Tompkins will do the heavy hitting for the University. Davidson is a former Three Five league star and is considered one of the best bats in the city. Tompkins and A. Cope will divide the time at first base. The pitchers and batters are listed for the Sorin team. The Sorin club has been playing a hard stop job according to present arrangements.

Youngster—  
One of the fastest players in the faculty is a young man named John Youngster who is a brother of Tommy Mee, third baseman for the University. He was found to report to the Central champs at the end of the season and is expected to try out with the Panthers at Notre Dame Saturday. Youngster is a fast baller but Mee and others were probably glad to let out Mee and Youngster because the two players are both from the Springfield, showing style as a fielder and as a runner. Youngster is a good player. There is little doubt but that he will make a valuable addition to the Sorin circuit this season.

Outfield—  
Richards, Alderson and Weise will comprise the outfield for the Sorin club, with Weiser and Krosby, another member of the club, filling in at left. Both look as good as any in the league this year. The Sorin club has a good set of ground cavers. The game with Notre Dame will be the first of the season and will be excellent training for the club.

The Barber Representatives will meet with the Sorin club Saturday afternoon. This is the first season and for the first time the Barber Reps expect to find that the team is fast and has promise. The Barber Reps, Schaeffer and Olivere will stage practice games Saturday afternoon and the first game of the opening of the regular season on May 12.

Adice has released Robinson, a Fe-  
deral leather from Canada.

JOE MEE
